**DON'T WAIT UNTIL YOU HAVE A PROBLEM
TO FIND A SOLUTION.**

HI-SPEED INCREASES PRODUCTIVITY, REDUCES REPAIR COSTS, IMPROVES RELIABILITY.

You probably don't know it, but your equipment is costing you money. Unless your entire operation is somehow operating at peak efficiency, you are wasting energy and putting unnecessary strain on your machinery, which will ultimately lead to lost operational uptime - and that's when you really feel the pain.

But Hi-Speed Industrial Service can help you avoid those issues for a fraction of what those inevitable major repairs and resulting downtime will cost.

**HI-SPEED'S NON-DESTRUCTIVE
PREDICTIVE MAINTENANCE PROGRAM**

— IDENTIFIES AND ADDRESSES —
**EQUIPMENT PROBLEMS BEFORE THEY
TURN INTO PRODUCTION FAILURES.**

Using sophisticated analytical testing and monitoring equipment, we can detect issues ranging from imbalance, misalignment and faulty switches to bad breakers, loose connections and other looming headaches. We can then map out a plan for upgrades and corrections that coincides with your regularly scheduled maintenance.

No extended interruptions. No surprises.
Just less downtime and fewer replacements.

**TRUST THE WELL-BEING
OF YOUR BUSINESS
TO THE
PEOPLE WHO KNOW IT BEST.**

Hi-Speed has kept facilities like yours up and running every single day since 1946. We do it with an experienced management team and most thoroughly trained repair techs in the region.

We stay ahead by utilizing state-of-the-art equipment from the leading manufacturers in the industry along with software specifically designed to assess and monitor industrial set-ups like yours.

We stay relevant by taking the time to understand your facility and your business to make sure we address whatever is most critical to you.

HI-SPEED

SAVES YOU MONEY
